Explanation of difference (if applicable):			

Column B - Each reserve should be renamed to show the specific purpose / name given by this authority.

Column D - Earmarked items - a value for the amount earmarked for each specific reserve should be entered. The number can be reduced or extended as appropriate.

Earmarked items are reserves carved out from general reserves. They may have come from donations, or they may be used for other than the Council has designated/declared that they are being held for. NB: A Council needs to formally designate and minute decisions to earmark funds. And similarly, if the Council has designated funds for a specific purpose for which they have not been designated, the Council needs to take a decision to un-designate/withdraw funds from the budget review to ensure the Council are holding appropriate levels of funding and using it as the Council sees fit.

Column D - Ring-fenced items - a value for the amount restricted (ring-fenced) for each specific reserve should be entered. The number can be reduced or extended as appropriate.

Ring fenced items are reserves which may have been raised or donated to the Council for a specific or restricted purpose. For example, S106 would be ringfenced as there are limitations on what it can be used for.

Column D - General reserves - this should relate to normal operating funds (reserves held for the general purposes of the Council) and should be the difference between the total of all Earmarked reserves and Restricted (ring-fenced) reserves.
